OBJECTIVE

Seeking a challenging opportunity within The Boeing Company where I can leverage my strong analytical skills, communication abilities, and collaborative approach to contribute to business excellence.

EXPERIENCE

June 2024 – Current

Quality Systems Specialist, *The Boeing Company*

- Lead headcount forecasting and workforce planning for BGS Global Technical Operations Quality using Adaptive Planning, partnering directly with senior leadership and the GTO Quality Director to support strategic resource allocation and long-term planning
- Serve as San Antonio Quality Communications Focal, leading site-wide communication strategy to proactively identify and mitigate systemic risks
- Use data driven analysis and RCCA processes to identify systemic issues and emerging risks, improve communication processes, and prevent recurring nonconformances.
- Develop Quality Alerts and Bulletins to drive awareness and ensure alignment with Quality standards, regulatory requirements, and customer expectations
- Lead through influence and partner with cross functional stakeholders to translate data into actionable insights and improve compliance and operational performance
- Act as liaison between Business Unit leadership and program management as BGS QCFC Focal, supporting recruiting, onboarding, and rotation planning for Quality personnel
- Lead Document Management System (Alfresco) and content governance, ensuring accuracy, accessibility, and compliance of Quality documentation across the organization
- Conduct ongoing process and performance analysis to identify improvement opportunities, enhance process capability, and support continuous improvement initiatives
- Support audit readiness and compliance efforts by ensuring processes, documentation, and communications align with Quality Management System (QMS) standards

April 2022 – June 2024

BGS Property Management Specialist, *The Boeing Company*

- Developed and delivered Property Management training across BGS sites to improve understanding of policies, procedures, and audit requirements
- Supported Government audits by researching and documenting policies, procedures, and supporting data to maintain compliance
- Identified and implemented process improvements based on audit findings to enhance business operations and services
- Used Boeing tools and software to manage property information, maintain records, and support effective communication across teams

August 2017 – December 2022

Bartender/Server, *Dos Sirenos Brewing*

- Delivered high quality customer service in a fast-paced environment while maintaining professionalism and attention to detail
- Communicated effectively with guests and team members to ensure accurate and courteous service
- Managed inventory and restocked bar supplies to support smooth operations

August 2020 – April 2022

Kindergarten Assistant Teacher, *Saint Mary's Hall*

- Supported the lead teacher with daily lesson planning and classroom activities
- Worked with small groups of students to provide individualized support and reinforce learning objectives
- Helped maintain a safe, organized, and positive classroom environment while building routines that supported student behavior and engagement

August 2014 – August 2017

Enrichment Administrative Assistant, *Saint Mary's Hall*

- Supported leadership with calendar management, meeting preparation, and follow up on assignments based on business needs
- Analyzed data sets to identify trends and provide insights to support decision making
- Used Excel, Word, and Outlook to manage information, coordinate communication, and complete administrative tasks efficiently
- Reviewed financial documents, statistical data, and reports to support accurate tracking
- Interpreted financial trends and recommended improvements to strengthen business processes
- Collaborated with HR, finance, and other business departments to support communication, coordination, and daily operations

EDUCATION

Master of Science, Data Science

Johns Hopkins University – May 2028 (Expected)

Bachelor of Science, Mathematics (minor in Data Science)

University of the Incarnate Word – May 2026

Associate of Science, Mathematics

San Antonio College – May 2017

SUMMARY OF QUALIFICATION

- Strong analytical background with experience in data collection, trend analysis, forecasting, and translating findings into actionable insights to support business decisions
- Proficient in Microsoft Office Suite, Tableau, and Boeing systems including GOLD, GOLDesp, CCS, OnePPPM, DMS, Alfresco, Adaptive Planning, and CLEaR
- Effective communicator with experience collaborating with cross functional teams, leadership, and stakeholders to support alignment, problem solving, and process improvement
- Working knowledge of Boeing processes, policies, and organizational structure, with experience supporting root cause analysis, corrective actions, and continuous improvement efforts
